

ELECRAMA 2010

Event Details

Date: 20-24 January 2010

Venue: Bombay Exhibition Centre, Mumbai, India

Booth No: H5P94

ELECRAMA 2010 was one of the world's largest electrical and industrial electronic exhibitions conducted in Mumbai from 20-24 January 2010 by IEEMA (Indian Electrical and Electronics Manufacturing Association) and supported by the Ministry of Power and Ministry of Heavy Industries and Public Enterprises, Government of India.

The theme itself depicted a welcome change – '**POWER IS HERE, FUTURE IS NOW**'.

The event saw participation from over 1,000 exhibitors from 40 plus countries. More than 1,00,000 visitors had come to experience and understand the various aspects of power transmission and distribution products from 220V to 1200kV. Delegates comprising of states people, senior utility executives and business people from various countries came together to explore the opportunities on many fronts like seminars, conferences and explore the other future technologies.

Kalkitech has been a regular participant in ELECRAMA since last few years. During ELECRAMA 2010, Kalkitech showcased Kalkitech SYNC and Kalkitech ELTRIX. Kalkitech SYNC covers the entire offerings of Kalkitech for the Communication vertical while Kalkitech ELTRIX caters to the offerings of Kalkitech in Optimization vertical.
