

Kalkitech Press Release

Kalkitech cosponsors the IEEE Smart Grid Workshop held in Mysore

Mysore, India, May 15, 2010

The International Workshop on **Challenges in Smart Grid and Renewable Resources** was conducted on May 13-15 at Infosys Campus, Mysore, India. The workshop was organized by IEEE Power and Energy Society, Bangalore Chapter and IEEE Bangalore section. The workshop focused on the vision of Smart and Intelligent Grid including topics on communication infrastructure, key technologies, regulatory frameworks and the role of standards. The workshop was well attended by delegates from the various government bodies, private sector companies and academia.

Kalkitech was one of the sponsors for the workshop as well as a member of the core organizing committee involved in the smooth conduct of the event. Jose Thomas and Toney Kurian from Kalkitech presented papers on the topics 'Relevance of Common Information Models Interface Definition in Next Generation EMS-DMS Systems' and 'Generic Modern Process Bus technologies and the Precision Time Protocol - IEEE 1588' respectively.

About Kalkitech

KALKI Communication Technologies Limited (Kalkitech) was founded in 1998, with the vision of becoming the leading provider of standard-based Control, Communication and Computing solutions to OEMs, System Integrators and End-Users in the energy industry. Kalkitech solutions are successfully deployed in over 25 countries in 4 continents, across the full spectrum of the energy value chain. Kalkitech has also been empanelled as a SCADA/DMS consultant under the R-APDRP scheme of Government of India. Continuous innovation through research and development is at the core of Kalkitech's corporate philosophy aimed at creating a Whole New World of Intelligent Energy Systems.
